

KING'S DAUGHTERS HOME

Consistent care for changing lives

Welcome to KING'S DAUGHTERS HOME

We are committed to providing consistent, affordable care of the highest quality. Licensed for assisted living and nursing services, we offer a continuum of care – the peace of mind for residents that we'll meet each of their needs as life circumstances change.

Our private pay facility is endowed by King's Daughters Endowment Fund, Inc., a philanthropic organization focused on the *person's* needs, not just the *patient's*. Our staff is completely invested in giving each resident the attention and care he or she deserves.

Consistent Care for Changing Lives

King's Daughters Home offers a distinct setting and atmosphere. The building, designed by Alden B. Dow, is a treasured piece of Midland architecture, while the environment is warm and intimate through the personal care provided by our staff. Our staff-to-patient ratio exceeds industry standards, so residents are assured that their needs will always be met promptly.

Comfortable Living

On the assisted living side of our facility, up to 30 residents can live in single rooms or apartments that contain a living room, bedroom and a full bath. In our nursing care center, up to 29 residents can live in single or double rooms. Our residents may bring their own chairs, television, dressers, or other favorite furnishings as space permits, further turning their space into something familiar and inviting.

Residents enjoy a fresh and clean environment with weekly cleaning and laundry services, bed and bath linens provided, and continually maintained and refurbished rooms.

An Active Community

Our residents have fun and socialize, whether in our living room or outside on nice days. We have activities scheduled daily – residents can join an exercise class, a stimulating discussion of current events, spelling bees, a bi-weekly book club and more. We also offer holiday observances and seasonal activities. Our volunteer corps assists with extra social events such as afternoon teas, ice cream socials, bingo games, monthly birthday parties and sing-alongs. Devotions are offered in our chapel each morning, and area churches schedule visits and services for their members as requested.

Quality Dining

We offer a daily experience of delicious eating in our dining rooms. Our registered dietitian and certified dietary manager ensure that meals meet the dietary needs and restrictions of each resident. Table seating rotates each month to encourage greater socialization, and special meals celebrate birthdays, holidays and other events. Residents are encouraged to invite guests.

Excellence in Nursing Care

King's Daughters Home focuses on holistic care for each resident. Our medical director specializes in geriatric medicine and ensures that all staff members are following the best and most up-to-date practices. Our building is equipped with a state-of-the-art emergency call light response system. Vision, dental, podiatry, laboratory, audiology and x-ray services are available onsite. Physical and occupational therapies and hospice services are available on request.

KING'S DAUGHTERS HOME

For more than 50 years, King's Daughters Home has provided exceptional care and services. Join us and become a part of this tradition of comfortable, quality living.
